My Dear Sir:— Being now eatisfied that my face is perfectly cured, I write to say so, and to thank you for your skillful treatment of it. Though it has been six months since it healed. I have forborne writing you because of the common belief that cancerous diseases cannot cured—that they can only be palliated or covered up for a time to re-appear with more than original virulence, and I thought that I would give my case the full benefit of all that doubt. I will state that in 1863 a pimple made its appearance on the base of my nose, near the Mineral Water Of different shades, and flavored; all of which I offer for sale at the lowest prices. JAMES B. COONEY etween Public Square and Christian Church appearance on the base of my nose, near the eye; it continued to increase in malignity until 1867, when I became seriously alarmed about 1867, when I become scriously alarmed about it. After submitting to the treatment of several physicians until June, 1868, without benefit but getting worse all the time—I went to Louisrille to consult you. I had become satisfied that a speedy cure must be effected or it would soon prove fatal. By this time the cancer had extended almost to the corner of the eve, involving its nerves, and to the top of the nose, and was rapidly growing more malignant in its character. I placed myself under your treatment; and in less than four months was cured and have so continued now six months. I be-SHELBY FARM
